

Vacancy: Mechanical Engineer (Associate / Full-Time / Part-Time / Retainer)

Role Overview:

Ing. Godfrey Muscat is seeking a motivated Mechanical Engineer to join our engineering practice. This role is open to both experienced professionals and 4th-year engineering students on a full-time basis. We offer flexible engagement options for experienced applicants, including Associate, Full-Time, Part-Time, or Retainer contracts.

Key Responsibilities:

- Prepare technical specifications for complex mechanical systems.
- Design systems including HVAC, plumbing, LPG, and fuel infrastructure.
- Conduct site inspections on diverse lifting and construction equipment.
- Certify machinery like cranes, forklifts, and cherry pickers.
- Inspect site gear including slings, brick forks, and concrete hoppers.

Requirements:

- Candidates in possession of the engineering warrant, or in process of working towards the engineering warrant, will be preferred.
- Mechanical Engineering degree or currently a 4th-year student available full-time.
- Valid driving licence for site visits.
- Self-motivated mindset to work under your own initiative.
- Resilience to deliver high-quality work under pressure.
- Independence to manage tasks with minimum supervision.

What We Offer:

- Flexible contract types for experienced engineers to suit your lifestyle.
- Competitive remuneration package aligned with your role and experience.
- Comprehensive training programs specifically for junior engineers and students.
- Career progression within a dynamic engineering environment.

To apply, please submit your CV and state your preferred contract type to Ing. Godfrey Muscat at muscatgodfrey@gmail.com.

Deadline: 16th July.
